FLASH-CLICK®

SOLID POLYMER DOUBLE FLANGE BEARING ASSEMBLY

APPLICATIONS

General – Generally applicable within the limits of the material properties

Industrial – Domestic appliances, materials handling equipment, apparatus engineering, slot machines and cash boxes and many more

CHARACTERISTICS

– Can be used with different bearing housing materials, e.g. aluminium, magnesium and plastic
– Feasible for a larger variety of bearing housing dimensions, from thin metal sheet housings up to multiple and sectional longer housing areas
– Reduced total system costs with increased bearing housing tolerances, even stamped or laser burned housings are suitable
– Manual and automated installation possible

AVAILABILITY

Non standard parts made to order
