TriboShield® TS421

TS421 is based on engineering thermoplastics, specifically designed for extremely low friction in lubricated conditions under low loads but presenting good characteristics in dry low load conditions as well. This system comprises a primer layer and an active hybrid top-coat. TS421 is part of the standard TriboShield® product range.

**TYPICAL APPLICATIONS**
- Pumps
- Hydraulic motors
- Precision linear guides

**UNIQUE CHARACTERISTICS**
- Extremely low friction in lubricated condition
- Very low friction in dry conditions at low loads
- Excellent chemical resistance

**TRIBOMATE® UPGRADE AVAILABLE**
Yes

**TriboShield® Standard Product Range**

**COATING ADVANTAGES**
- More compact design
- Less complex system assembly
- Reduced weight
- Increased surface durability

**PRODUCT RANGE**
- TriboShield TS801
- TriboShield TS741
- TriboShield TS651
- TriboShield TS501
- TriboShield TS421
- TriboShield TS225
- TriboShield TS161
